Simply BlueSM PPO Silver \$4000 with Rx Drug Simply Blue PPOSM SG Benefits-at-a-glance Effective for groups on their plan year

This is intended as an easy-to-read summary and provides only a general overview of your benefits. It is not a contract. Additional limitations and exclusions may apply. Payment amounts are based on BCBSM's approved amount, less any applicable deductible and/or copay. For a complete description of benefits please see the applicable BCBSM certificates and riders, if your group is underwritten. If your group is self-funded, please see any other plan documents your group uses. If there is a discrepancy between this Benefits-at-a-Glance and any applicable plan document, the plan document will control.

Preauthorization for Specialty Services - Services listed in this BAAG are covered when provided in accordance with Certificate requirements and, when required, are preauthorized or approved by BCBSM except in an emergency.

Note: A list of services that require approval **before** they are provided is available online at bcbsm.com/importantinfo. Select *Approving covered services*.

Pricing information for various procedures by in-network providers can be obtained by calling the customer service number listed on the back of your BCBSM ID card and providing the procedure code. Your provider can also provide this information upon request.

Preauthorization for Specialty Pharmaceuticals - BCBSM will pay for FDA-approved specialty pharmaceuticals that meet BCBSM's medical policy criteria for treatment of the condition. The prescribing physician must contact BCBSM to request preauthorization of the drugs. **If preauthorization is not sought, BCBSM will deny the claim and all charges will be the member's responsibility.**

Specialty pharmaceuticals are biotech drugs including high cost infused, injectable, oral and other drugs related to specialty disease categories or other categories. BCBSM determines which specific drugs are payable. This may include medications to treat asthma, rheumatoid arthritis, multiple sclerosis, and many other diseases as well as chemotherapy drugs used in the treatment of cancer, but excludes injectable insulin.

A nonprofit corporation and independent licensee of the Blue Cross and Blue Shield Association

Simply BlueSM PPO Silver \$4000 with Rx Drug Prescription Drug Coverage Benefits-at-a-glance Effective for groups on their plan year

Prescription Drug Discount Program - Prescription drug manufacturers provide coupon programs for certain medications. Your benefit plan allows you to take advantage of BCBSM-approved coupon programs for select medications. This benefit may lower the cost-sharing typically required for these drugs. Your out-of-pocket expense will be no more than your benefit cost-sharing. When a manufacturer coupon is used, only the amount you paid for the prescription will apply towards your annual out-of-pocket maximum.

NOTE: Adjustments may be required to accurately reflect your annual out-of-pocket maximum to reflect your true out-of-pocket cost.

This program may be discontinued at any time if it is no longer supported by the vendor.

Specialty Pharmaceutical Drugs - The mail order pharmacy for **specialty drugs** is AllianceRx Walgreens Prime, an independent company. Specialty prescription drugs (such as Enbrel® and Humira®) are used to treat complex conditions such as rheumatoid arthritis, multiple sclerosis and cancer. These drugs require special handling, administration or monitoring. AllianceRx Walgreens Prime will handle mail order prescriptions only for specialty drugs. You may obtain specialty drugs through a Walgreens retail pharmacy as well as long as the drug is available at that location. You may want to call ahead to confirm availability at the location. **If you go to a non-AllianceRx Walgreens Prime, you may be responsible for 100% of the cost of the specialty drug.** Other mail order prescription medications can continue to be sent to the OptumRx home delivery pharmacy. (OptumRx is an independent company providing pharmacy benefit services for Blues members.) A list of specialty drugs is available on our Web site at bcbsm.com/pharmacy. If you have any questions, please call AllianceRx Walgreens Prime customer service at 1-866-515-1355.

We will not pay for more than a 30-day supply of a covered prescription drug that BCBSM defines as a "specialty pharmaceutical" whether or not the drug is obtained from a **90-Day Retail Network provider** or mail-order provider. We may make exceptions if a member requires more than a 30-day supply. BCBSM reserves the right to limit the initial quantity of select specialty drugs to no more than a 15-day supply for each fill. Your copay/coinsurance will be reduced by one-half for each fill once applicable deductibles have been met.

Select Controlled Substance Drugs - BCBSM will limit the initial fill of select controlled substances to a 5-day supply. Additional fills for these medications will be limited to no more than a 30-day supply. The controlled substances affected by this prescription drug requirement are available online at bcbsm.com/pharmacy.

Member's responsibility (copays and coinsurance amounts)

Note: Your prescription drug copays and coinsurance amounts, including mail order copays and coinsurance amounts, are subject to the **same** annual out-of-pocket maximum required under your medical coverage. The 25% member liability for covered drugs obtained from an out-of-network pharmacy will **not** contribute to your annual out-of-pocket maximum.

Features of your prescription drug plan

BCBSM Custom Select Drug List	<p>A continually updated list of FDA-approved medications that represent each therapeutic class. The drugs on the list are chosen by the BCBSM Pharmacy and Therapeutics Committee for their effectiveness, safety, uniqueness and cost efficiency. The goal of the drug list is to provide members with the greatest therapeutic value at the lowest possible cost.</p> <ul style="list-style-type: none"> • Tier 1 (generic) - Tier 1 includes generic drugs made with the same active ingredients, available in the same strengths and dosage forms, and administered in the same way as equivalent brand-name drugs. They also require the lowest copay, making them the most cost-effective option for the treatment. • Tier 2 (preferred brand) - Tier 2 includes brand-name drugs from the Custom Select Drug List. Preferred brand name drugs are also safe and effective, but require a higher copay. • Tier 3 (nonpreferred brand) - Tier 3 contains brand-name drugs not included in Tier 2. These drugs may not have a proven record for safety or as high of a clinical value as Tier 1 or Tier 2 drugs. Members pay the highest copay for these drugs. • Tier 4 (generic and preferred brand-name specialty) - Tier 4 includes covered specialty drugs listed as generic drugs (Tier 1) or preferred brand-name drugs (Tier 2) from the Custom Select Drug List. These drugs have a proven record for safety and effectiveness, and offer the best value to our members. They have the lowest specialty drug copay. • Tier 5 (nonpreferred brand-name specialty) - Tier 5 includes covered specialty drugs listed as nonpreferred brand name (Tier 3). These drugs may not have a proven record for safety or their clinical value may not be as high as the specialty drugs in Tier 4. They have the highest specialty drug copay.
Prior authorization/step therapy	<p>A process that requires a physician to obtain approval from BCBSM before select prescription drugs (drugs identified by BCBSM as requiring prior authorization) will be covered. Step Therapy, an initial step in the Prior Authorization process, applies criteria to select drugs to determine if a less costly prescription drug may be used for the same drug therapy. This also applies to mail order drugs. Claims that do not meet Step Therapy criteria require prior authorization. Details about which drugs require Prior Authorization or Step Therapy are available online at bcbsm.com/pharmacy.</p>
Quantity limits	<p>To stay consistent with FDA approved labeling for drugs, some medications may have quantity limits.</p>
Exclusions	<p>The following drugs are not covered:</p> <ul style="list-style-type: none"> • Over-the-counter drugs and drugs with comparable OTC counterparts (e.g., antihistamines, cough/cold and acne treatment) unless deemed an Essential Health Benefit or not considered a covered service • State-controlled drugs • Brand-name drugs that have a generic equivalent available • Drugs to treat erectile dysfunction and weight loss • Prenatal vitamins (prescribed and over-the-counter) • Brand-name drugs used to treat heartburn • Compounded drugs, with some exceptions • Cosmetic drugs
